Introductory Note

Current bibliographical information is a list of recently received books, publications of governments and of national and international organizations, and selected periodical articles relating to topics considered by the organs of the United Nations. It also includes books and articles about the organizations within the United Nations system, new reference works, books of general interest in the fields of geography, history, biography, etc., and periodicals newly acquired by the Library. Materials are grouped under broad subject categories reflecting the programmes, activities and interest of the Organization.

Starting with the April 1980 issue Current bibliographical information is produced monthly in two sections: a computer produced section for roman alphabet materials and a manually produced section for nonroman alphabet materials, since facilities are not yet available to produce the latter by computer. Materials in both sections will continue to be grouped under broad subject categories. However, to provide greater access to information, the computer section includes three indexes: a personal and corporate author index, a title index and a geographic subject index. Citations in these indexes are brief, but they provide a sequential number so that the user may easily find a full bibliographic description in the main listing of the computer produced section.

The January issue of each year provides a list of the periodicals consulted for the selection of articles.* So far as the documentation of organizations within the United Nations system is concerned, relevant sales publications, periodicals and monographs are considered for selection.

Most of the publications listed may be borrowed from the Loan Desk located on the 1st floor, extension 7390, or from the special collection indicated by the location symbol or the prefix to the collection indicated by the location symbol or the prefix to the call number as follows:

		Room	Extension
Arch	- Archives Reference Collection	PK-1200	8681
ESA	- Statistical Reference Collection	3075	5670

Map	- Map Reference Collection	L-282	7425

TNC	- Transnational Corporations Collection	BR-1066	8609
UN	- United Nations Documents Reference Collection	L-260	7422
WW	- Woodrow Wilson Memorial Collection	L-260	7422

Books in the General Reference Collection bear the prefix Ref and do not circulate, but may be consulted in the General Reference Room located on the 1st floor. Periodicals from which articles are included bear call numbers in order to facilitate their location and identification. Such periodicals may be consulted in, or requested from the Periodicals Reading Room located on the concourse level, room L-1B-10, extension 7384. Requests for circulation of periodicals should be addressed to the Chief of the Collection Maintenance and Circulation Section, room L-105A, extension 7389.

*This list will be published in a future issue due to changes in format and production methods.

Note liminaire

Renseignements bibliographiques d'actualité est un répertoire d'ouvrages et de publications émanant de gouvernements et d'organisations nationales et internationales ainsi que de divers articles de périodiques, qui ont été reçus récemment et ont trait à des questions examinées par les organes de l'Organisation des Nations Unies. On y trouve également des ouvrages et des articles sur les organisations qui appartiennent au système des Nations Unies, des ouvrages de référence récents, des livres d'intérêt général concernant des domaines tels que la géographie et l'histoire, des oeuvres bibliographiques, etc., ainsi que des périodiques nouvellement acquis par la Bibliothèque. Les collections sont groupées par grands sujets en fonction des programmes, activités et intérêts de l'Organisation.

A partir d'avril 1980, Renseignements bibliographiques d'actualité paraft mensuellement en deux parties: une partie établie sur ordinateur pour la documentation rédigée dans les langues utilisant l'alphabet romain et une partie établie manuellement pour la documentation en caractères non-romains, car on ne dispose pas encore des moyens pour établir celle-ci sur ordinateur. Dans l'une et l'autre parties, les collections restent groupées par grands sujets. Toutefois, pour faciliter l'accès à l'information, la partie établie sur ordinateur comporte trois index: une index par auteurs, un index par titres et un index par sujets géographiques. Dans ces index, les entrées sont brèves mais elles sont accompagnées d'un numéro d'ordre de façon que l'utilisateur puisse trouver aisément une description bibliographique complète dans le répertoire principal de la partie établie sur ordinateur.

Chaque année le numéro de janvier donne une liste des périodiques d'où ont été extraits des articles.* Pour ce qui est de la documentation des organisations appartenant au système des Nations Unies, on opère un choix après consultation des publications destinées à la vente, des périodiques et des monographies.

La plupart des publications auxquelles renvoie la bibliographie peuvent être empruntées en s'adressant au Service de prêt situé au rez-de-chaussée (poste 7390) ou au service qui s'occupe des collections spéciales auxquelles renvoie soit un symbole indiquant l'emplacement du bureau où se trouve la collection, soit un sigle d'identification, comme indiqué ci-après:

		Bureau	Poste téléphonique
Arch	- Collection de référence de la Section des Archives	PK-1200	8681
ESA	- Collection de références statistiques	3075	5670
Lang	- Collection de la Division de traduction	1262	6736
LSA	- Collection des affaires juridiques	3455	5372
Map	- Collection des cartes	L-282	7425
TES	- Collection du Service de la formation et des examens	725-K	7015

UN	- Collection de documents des Nations Unies	L-260	7422
WW	- Fonds dit Woodrow Wilson Memorial Collection	L-260	7422

Les ouvrages de la Bibliothèque de références générales, qui portent le préfixe Ref, ne peuvent pas être empruntés mais peuvent être consultés dans la salle de références générales située au rez-de-chaussée. Les périodiques où sont parus les articles mentionnés dans la bibliographie sont affectés d'une cote qui facilite leur recherche et leur identification. Ils peuvent être consultés ou obtenus sur demande dans la salle de lecture des périodiques située au premier sous-sol (Bureau L-1B-10, poste 7384). Les demandes concernant la distribution de certains périodiques doivent être adressées au Chef de la Section de gestion et de circulation du fonds (Bureau L-105A, poste 7389).

*Cette liste sera publiée dans un prochain numéro vu quelques changements à apporter dans le format et dans les méthodes de production.
